Vintage characteristic	2016 had a very long vegetative season. Spring was marked by a good amount of rainfall, which helped the vines throughout the entire summer. Summer days displayed a balanced alternance of warm daytime hours and chilly nights, an aspect that contributed towards a slower ripening of the grapes. The evolution of the structures needed for the wine progressed in a very positive way.
Tasting notes	The influence of the vintage is clear in the outcome of a well balanced wine, that displays rich fruit tones (red berries and cherries) and fine tannins.
